TechnipFMC

Terminal solution partner

One source for all your terminal needs

The only terminal solution

TechnipFMC offers the widest range of equipment and automation systems to help your terminals achieve:

▸ Higher throughput
▸ More accurate measurement
▸ Better inventory control
▸ Safer loading operations
▸ Increased profit

We provide comprehensive, single-source, end-to-end terminal solutions from the loading bay to the back office – for one terminal or hundreds, including:

▸ Terminal-level business systems
▸ Business/TAS host systems
▸ ERP integration
▸ Pipeline strainers
▸ Meters
▸ Flow computers
▸ Provers
▸ Valves
▸ Additive Injectors
▸ Presets
▸ Loading arms
▸ Loading skids
▸ Air purgers
▸ Eliminators
▸ Deaerators
▸ Proximity card readers
▸ On-truck loading systems

Tired of dealing with multiple third-party vendors?

TechnipFMC is the only terminal solution partner you need. Not only can we supply most of your terminal equipment and automation needs, but we also develop and support all the major equipment and systems that we deliver

World class project execution reduces risk

The exceptional functionality of FUEL-FACS+ is matched by the experienced project team that designs, develops, installs, and supports each system. Our project team is:

▸ Experienced in the oil, gas, and bulk liquid distribution sectors
▸ Guided by field-proven, documented project methodologies that are hailed by rigorous customer audits as unmatched in the industry
▸ Accomplished at delivering projects on time and on budget

Full range of project services from one company

You know how to run terminals. We know how to run terminal automation projects. We have all the expertise and resources necessary to deliver your project from start to finish:

▸ Project Management
▸ System Design Specification
▸ System planning
▸ Standardization and integration
▸ System configuration and testing
▸ Hardware procurement
▸ Installation and commissioning
▸ Instrument engineering
▸ Application development
▸ Regional and worldwide rollout
▸ Training and documentation
▸ System maintenance
▸ Product and system support
▸ Long term application support

Comprehensive Support

▸ Standard 24x7x365 support
▸ Support available for both the software and the configured application
▸ In-depth training at your site or ours
