Terminal Automation Platform

FUEL-FACS⁺ Central Business System (CBS)

Tie All Your Terminals Together Into a Single Platform with the FUEL-FACS⁺ CBS

A terminal automation system (TAS), such as the FUEL-FACS⁺ Facility Business System (FBS), manages individual distribution terminals. The FUEL-FACS⁺ Central Business System (CBS) ties multiple TAS systems together into a single, enterprise-wide platform.

Full Range of Project Services from One Company

You know how to run terminals. We know how to run terminal automation projects. We have all the expertise and resources necessary to deliver your project from start to finish:

- Project management
- System design specification
- System planning
- Standardization and integration
- System configuration and testing
- Hardware procurement
- Installation and commissioning
- Instrument engineering
- Application development
- Regional and worldwide rollout
- Training and documentation
- System maintenance
- Product and system support
- Long term application support

Even if your terminals use competing terminal automation systems or no automation, the FUEL-FACS⁺ CBS connects them all. The CBS enables you to manage hundreds of terminals from a single global location or multiple regional locations with:

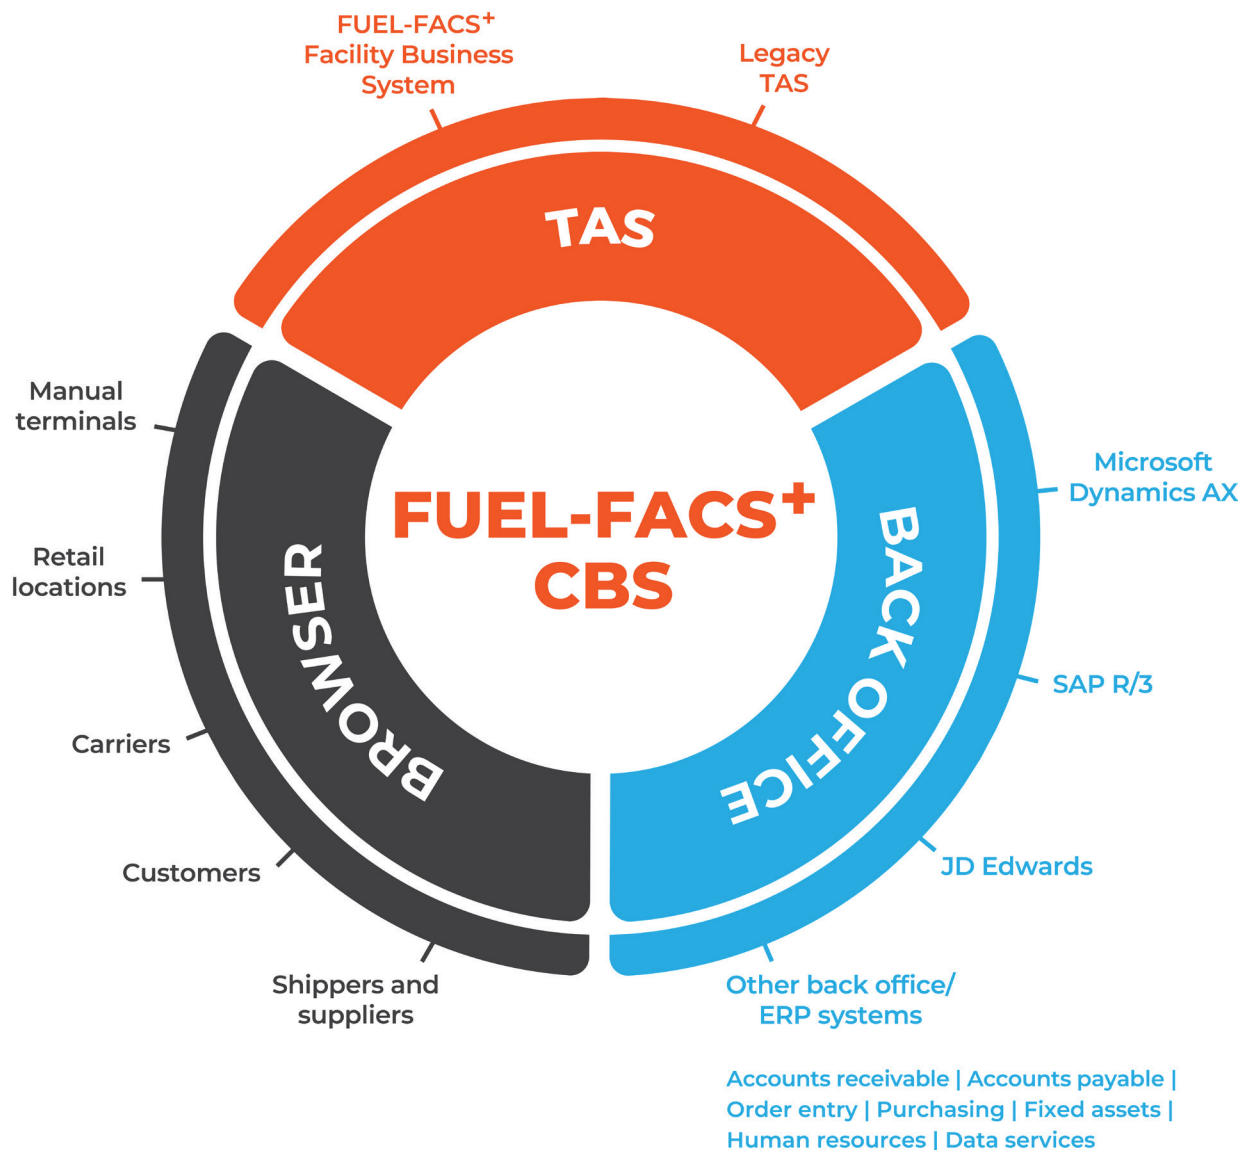

- Real-time visibility and control of the enterprise
- Cost-effective data exchange between the back office and all enterprise constituents
- Real-time acquisition, storage, and distribution of information between pipelines, terminals, tank farms, data services, outside supply points, and more
- Real-time reporting of product movements and inventories for management, operations personnel, exchange partners, and customers

World Class Project Execution Reduces Risk

The exceptional functionality of FUEL-FACS⁺ is matched by the experienced project team that designs, develops, installs, and supports each system. Our project team is:

- Experienced in the oil, gas, and bulk liquid distribution sectors
- Guided by field-proven, documented project methodologies that are hailed by rigorous customer audits as unmatched in the industry
- Accomplished at delivering projects on time and on budget

About Guidant

As the undisputed leader in liquid and gas custody transfer solutions with the largest global install base, Guidant's legacy is built on more than 90 years of expertise, accuracy, reliability, and best-in-class technologies. We are a private company focused on the measurement solutions business, serving emerging and established energy markets across the globe.
