

One Source for All of Your Terminal & Business Needs

Guidant delivers best-in-class solutions at any level of terminal operations including measurement, accounting, and control. When your needs span the entire range of terminal operations, then Guidant can also deliver a comprehensive, single-source, end-to-end solution that covers all four levels of your operation.

Guidant's end-to-end solutions captures orders at the back office and manages them all the way through loading. After a load is complete, bills of lading are generated and our integrated system ensures data is passed back through all levels for reporting and invoicing.

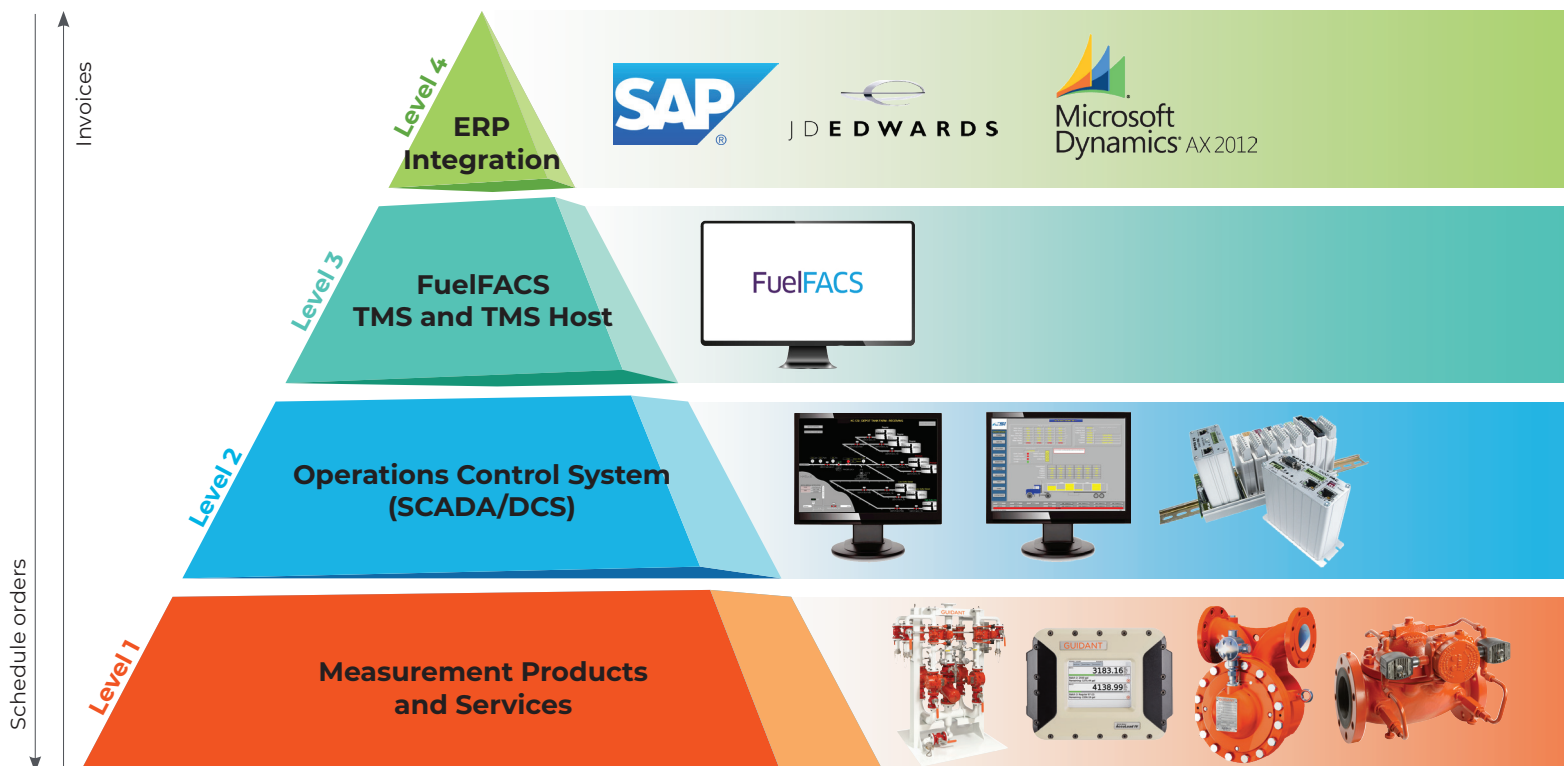

Levels of Terminal Operations

Level 1: Complete line of Smith Meter®, INVALCO®, and Sening® measurement products and services

Level 2: Operations supervisory control and data acquisition/distributed control system (SCADA/DCS)

Level 3: FuelFACS terminal management system (TMS) and TMS Host

Level 4: Integration with your back office enterprise resource planning (ERP) system

About Guidant

As the undisputed leader in liquid and gas custody transfer solutions with the largest global install base, Guidant's legacy is built on more than 80 years of expertise, accuracy, reliability, and best-in-class technologies. We are a private company focused on the measurement solutions business, serving emerging and established energy markets across the globe.
