

GUIDANT

Pioneering Precision Measurement Solutions

Committed to innovation for over 90 years

Our Solutions

Formerly the Measurement Solutions division of TechnipFMC, Guidant offers a broad portfolio of innovative measurement technology products, digital and automation solutions, and measurement control systems across the globe.

Guidant's solutions empower key markets—including midstream, downstream, transportation, and distribution—making them safer and more productive. Providing unrivaled accuracy, our fiscal metering and automation solutions optimize critical infrastructure in high-stakes environments, while our automation increases efficiency by linking back-office teams to operational activities.

Measurement Technologies

We deliver accurate and reliable measurement solutions for the transportation, distribution, and storage of energy products by truck, rail, vessel, aircraft, and pipeline.

World-Class Flow Research and Test Center | Liquid and Gas Ultrasonic Flow Meters

Measurement Control Systems & Automation

From a single-flow computer to a fully kitted metering station, we have the metering control solution to meet your needs and protect your assets with our measurement control systems.

SIGMA³ Flow Computer | Measurement Control System

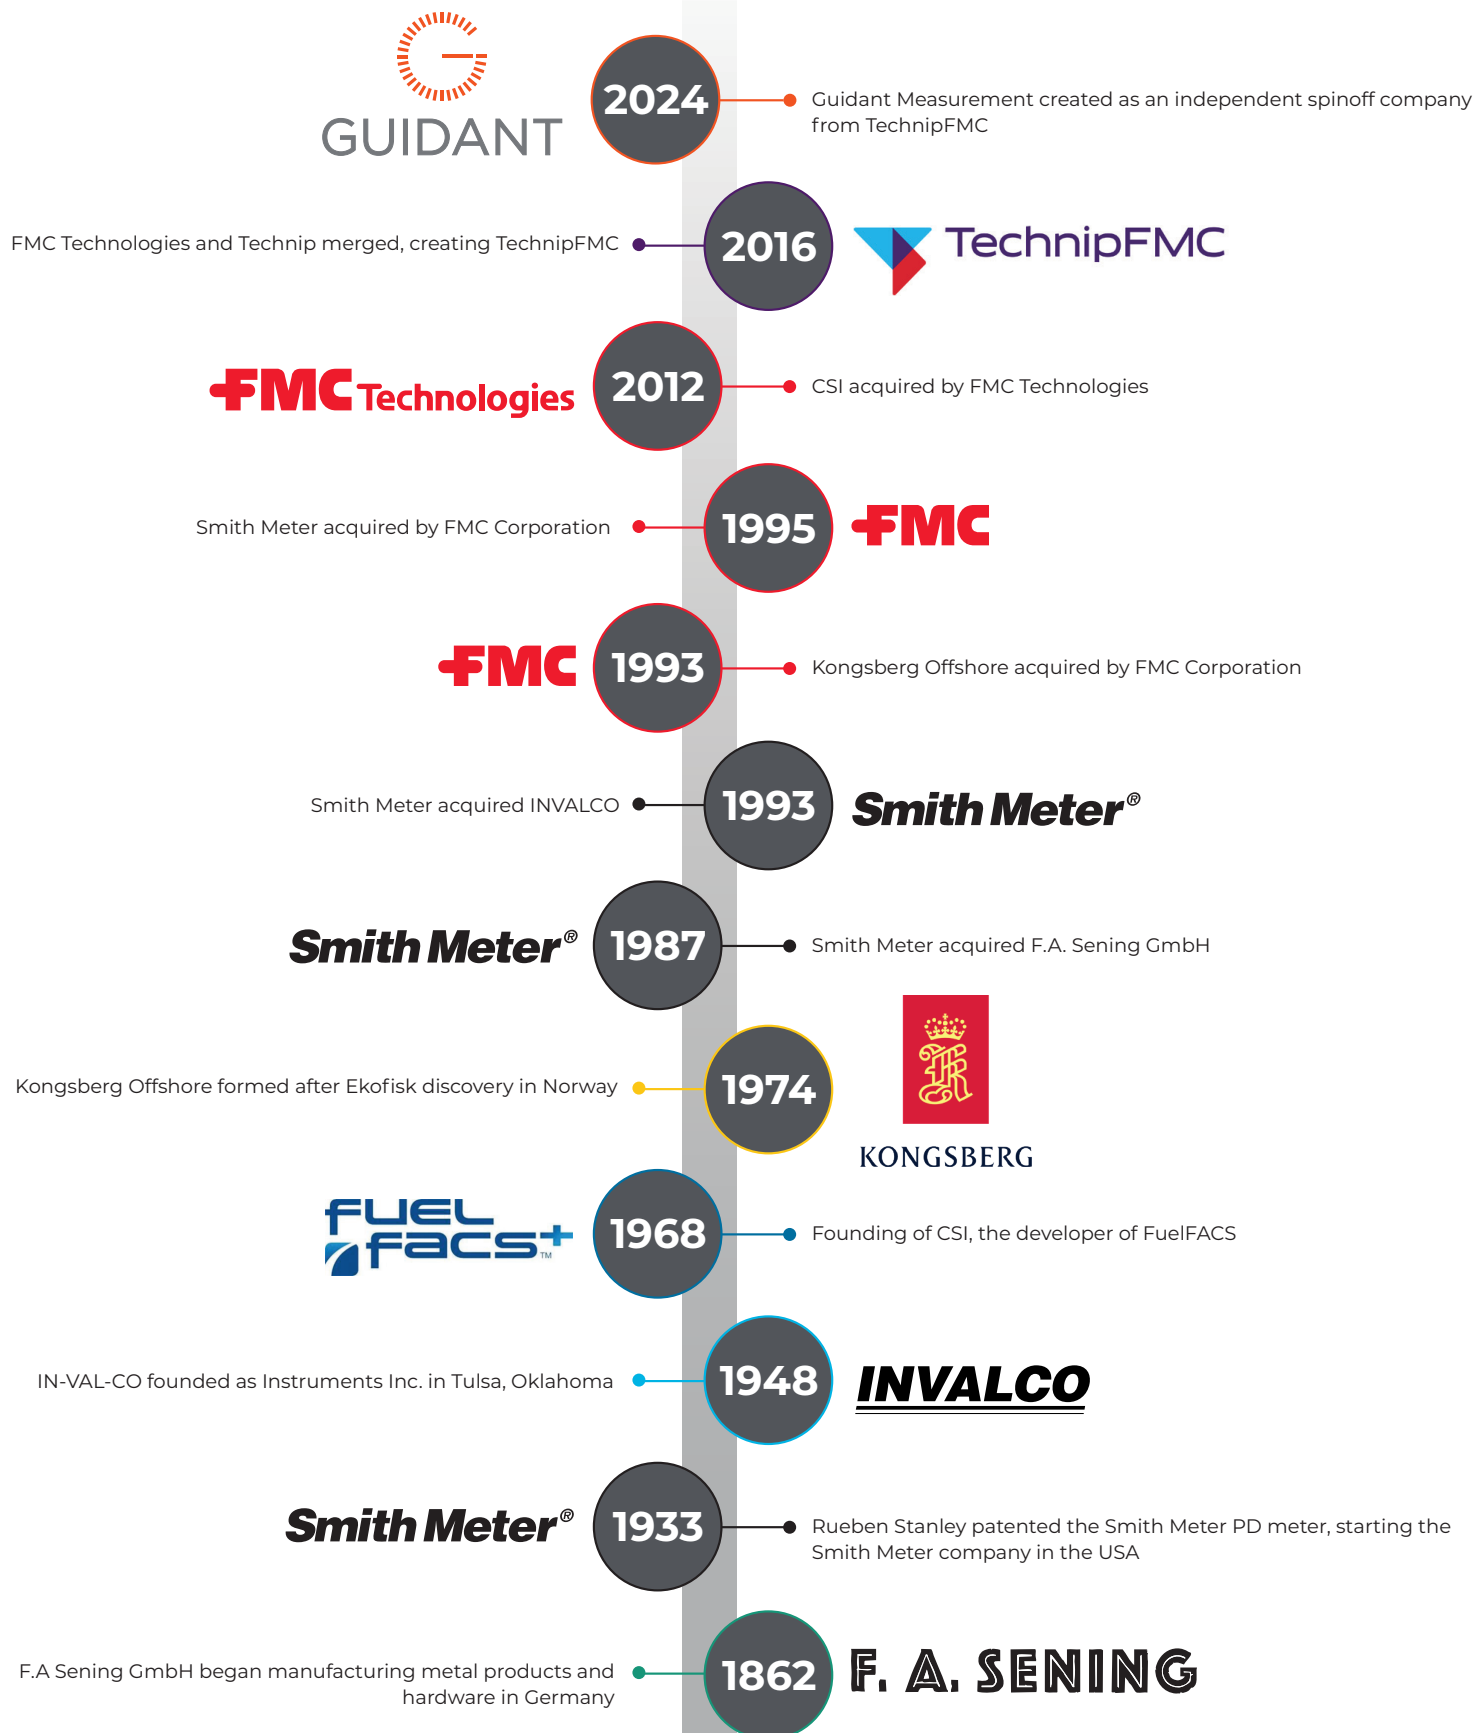

Terminal Management

Automate and optimize all of your terminal facilities from a single, integrated interface with FuelFACS software, a complete and integrated terminal solution.

FuelFACS Terminal Management System

90+ Years of Measurement Legacy

About Guidant

As the undisputed leader in liquid and gas custody transfer solutions with the largest global install base, Guidant's legacy is built on more than 80 years of expertise, accuracy, reliability, and best-in-class technologies. We are a private company focused on the measurement solutions business, serving emerging and established energy markets across the globe.
